In cases where an agency already has a confidentiality policy designed around the HIPAA standards, that policy can be modified to include the HMIS data collection, or can be amended to create one set of standards for clients covered under HIPAA, and a second set of standards for those covered only under HMIS FR 4848-N-02. Agencies should indicate in their Privacy Notice which standards apply to their situation.

It also states that "except for first party access to information and required disclosures for oversight and compliance auditing, all uses and disclosures are permissive and not mandatory."

NOTE: if a client refuses to release PPI, and such information is needed/required in order to provide services, the client's refusal may necessitate denial of service. Agencies may choose to make provisions for such denial of services in their policy.
